## marmomacc

From 30<sup>th</sup> September to 3<sup>rd</sup>  
October 2009

The **Italian Chamber of Commerce & Industry in Australia**, Perth Inc., is organizing a delegation of Australian Companies to visit the 44<sup>th</sup> edition of **Marmomacc** which is **the major international show in 2009** dedicated to companies working in the natural stone sector.

Now celebrating its 44<sup>th</sup> edition, the **International Natural Stone and Technology Exhibition** will once again be the leading international event in the natural stone sector and the **essential appointment** for all producers, operators and decision makers seeking success in an increasingly specialist and competitive context.

A **major showcase** will highlight the best production traditions and innovation on a national and international scale, international projects, with many initiatives promoting the special features and wealth of natural stone and the expressive potential of stone materials in **architecture and design**.

**Future and technological innovation** come together at Marmomacc: the exhibition has always kept pace with the changing requirements and expectations of the market to become the vital landmark for understanding the evolution of the natural stone sector - one of the fields driving the world economy.

The 44<sup>th</sup> edition of Marmomacc, scheduled in Verona from 30<sup>th</sup> September to 3<sup>rd</sup> October, is more than ready to improve the successful results achieved in previous editions.

Once again in 2009, the major focus will be on comparisons with specialist operators through the organisation of theme-based **cultural shows, experimental workshops and conventions** of international status. Their aim is to catalyse the attention of the sector in all its facets, to promote "stone culture" and to encourage debates between architects, designers and companies in the sector to promote products and technologies in this field.
